17.8%

Key Findings

- Fabric complaints are 3.5x more common in bad reviews than happy ones (15.0% vs. 4.3%).
- Sizing complaints are only 1.7x more common in bad reviews (9.7% vs. 5.8%), so they're less linked to low ratings.
- 39.6% of customers with fabric complaints would not recommend the product, vs. 17.8% overall.
- Jackets and sweaters have the highest fabric complaint rates among product types with 50+ bad reviews.
